Fun fact: 72% of Somalians living in the UK are in taxpayer subsidised social housing that you are paying for.

Further fun fact: Around 70% of Somalians living in the UK are unemployed and on benefits that you are funding.

NOW do you see why the [@reformparty_uk](#) policy [Show more](#)

o the Office for National Statistics, employment among the Somali population in England and Wales in 2021, remains significantly high, with active data and some reports indicating it is possibly exceeding 70%. Factors contributing to this include language barriers, lack of recognition for foreign qualifications, discrimination, and issues with refugee status. These factors prevent many from entering the workforce. In 2021, where 85% of Somali residents live in social housing, the COVID-19 pandemic has also exacerbated employment and financial stresses on the community.

Today two people were shot in a London family park. One died. The gunman is on the run.

Last year, nearby, a girl aged nine was shot in the head by a Turkish crime gang. The gunman wasn't caught.

The police say "there is no risk to the public."

This clearly isn't true.

I don't care what anyone says, ETHNICITY does matter.

It's the choice between being a massive majority or having your children replaced.

Imagine being in 2025 and thinking only Islam is a problem, what about black knife gangs in London? What about warring foreign tribes on British soil?.

There's a reason you can't get social housing or even on the housing ladder.

There's a reason you can't get your children into a school in your area.

There's a reason you can't get a GP appointment for 4 weeks.

There's a reason you wait 14 hours in A&E.

The reason being, we're being replaced and MILLIONS must go.

My loyalty will always be to my own people, anyone that dismisses their own ethnic group isn't genuine.

The majority of "stranger murders," where the victim doesn't know their attacker, are committed by blacks.

This is true regardless of the race of the victim.

As a proportion of overall homicides, whites are also more likely to be killed by a stranger than blacks.

How thick do you have to be to think deporting an unemployed underclass of low iQ Somalis and Bangladeshis doesn't reduce inequality.

They are literally an attempt to import absolute poverty just so the same old socialist slogans can be barked aloud in the 21st century.

 **Nadia Whittome MP**  @NadiaWhittomeMP · Aug 26

"Mass deportations" is a dehumanising, far-right fantasy.

It won't solve rising bills, growing inequality, gutted services and a rigged economy.
